### Fee Section

#### International Registration Fees and USPTO Certification Fee

The international registration fees are based on the specific election of fees by the designated countries. The calculation of the international registration fees can be determined from the [WIPO fee calculator](#)\*. Total fees also include a set USPTO certification fee based on the total number of classes in the international application, with each class only counting once, even if that class is claimed multiple times for different Contracting Party countries within this international application.

**NOTE:** Both the international registration fees and the USPTO certification fee must be fully paid at the time of filing this application, through the Pay/Submit process accessed after successful validation of this form.

**\*NOTE:** To calculate fees correctly through the WIPO fee calculator page, you must (1) select the latest date (but not a future date) from the "For date:" pull-down menu; and (2) select "United States of America" from the "Country of Origin" pull-down menu.

Number of Classes	<input type="text" value="1"/>	<b>Note:</b> The class number is based on the number of classes actually being extended in the international application.
International Registration Fees	<input type="text" value="753.83"/>	For information on this calculation, see <a href="#">WIPO fee calculator</a> *. Conversion from Swiss francs to U.S. dollars was based on the <a href="#">exchange rate</a> of 1.0011012.
USPTO Certification Fee	<input type="text" value="100.00"/>	=USPTO Certification Fee x Number of Classes
Total Amount	<input type="text" value="853.83"/>	=International Registration Fees + USPTO Certification Fee
